

Stay Organized and Compliant

THE CCOF COMPLIANCE REPORT

Find Every Request or Reminder Easily

The CCOF Compliance Report will help you stay organized and keep your operation in compliance. This custom report will give you an immediate understanding of your operation's current state of compliance, from recently-closed major issue action items to pending items that need to be addressed.

A Program Level

The Program Level identifies the CCOF program that your Action Item pertains to.

B Compliance Level

The Compliance Level describes the severity of the Deviation (what is out of compliance). From most to least severe, you might see levels such as Proposed Adverse Action, Noncompliance, Condition of Certification, or Guidance on your Compliance Report. Each compliance level will have different due dates, requirements, and options.

C Instructions

These instructions outline the requirements and options specific to the Compliance Level of your Action Item.

D Action Item

This is an Action Item. This includes a description of how your operation is out of compliance (the Deviation), the action you need to take (the Action Item), and the relevant regulatory standard (the Requirement). Each Action Item has a unique number. Refer to it in your response to CCOF.

E Updates & Requests

Keep track of items you've submitted to CCOF for review. No more confusion about whether we've received the item.

F Helpful Resources & Information

This section makes communicating CCOF member benefits and other important certification news easier than ever.
