Operation Name:	Date:	

- ▶ Submit this form with your initial application to describe nonorganic products or materials you plan to use. *Private label owners who do not process products are not required to submit this form.*
- ► CCOF will review all materials listed and provide you with a copy of your OSP Materials List listing approved materials.
- ► To add or remove products after your initial application, update your OSP Materials List directly. CCOF may require additional information regarding products you include on this form.

It is your responsibility to verify that all materials are allowed prior to use. Only materials included in your OSP Materials List may be used. This protects you and helps ensure you do not use noncompliant materials that will negatively affect your OCal certification.

A. Nonorganic Processing Aids

- List all nonorganic materials that directly contact OCal products (i.e. gases, extraction materials, processing/packaging aids, fining agents, acids, filtration aids, wash water additives, sanitizers).
- ▶ Include specific product names, functions, and manufacturer information.
- For each nonorganic material not previously approved by CCOF, submit an <u>OCal Product Nonorganic Material Affidavit</u> or <u>OCal Natural Flavor Affidavit</u>. Search for approved materials on <u>MyCCOF.org</u>.

Brand Name	Manufacturer	General Material Name	Function (Filtration, wash water, processing aid fermentation, etc.)	CCOF Use Only
Ex: Pure Sodium Bicarbonate	Baker's Best Friend	baking soda	processing aid	

Nonorganic Processing Aids – Nonorganic materials used in or on OCal products must not be the product of GMOs or produced with the use of irradiation or sewage sludge. Nonorganic materials must comply with any additional OCal/organic annotations or requirements.

B. Equipment Sanitizers & Detergents/Cleaners

- ▶ List all sanitizers and no-rinse detergents/cleaners used on OCal product contact surfaces, including transport, storage, handling or processing. Note that quaternary ammonia sanitizers must be completely removed from equipment by rinsing; testing for zero residue will be required.
- ▶ Do not list detergents and cleaners that are rinsed off and have no risk of coming in to contact with OCal products.
- ▶ Do not list detergents, cleaners, and sanitizers that are used on non-OCal product contact surfaces, such as employee bathroom or drain cleaners.

C. Facility Pest Control Materials – National List

- ▶ National List Pest Control Materials may be used only if preventative practices and mechanical/physical controls are not sufficient to prevent or control pests. "National List" means the list of allowed and prohibited substances included in National Organic Program regulations (7 CFR Sections 205.600 through 205.607).
- Only list materials that are used in OCal production and storage areas.

Material	Brand Name	Manufacturer	Location Used and Method of Application (e.g. storage, fogging, crack and crevice)

- This form pertains to OCal System Plans. If you are certified by CCOF as organic rather than OCal, refer to the <u>Exempt Handler</u> <u>Affidavit</u> instead for incorporation into your Organic System Plan.
- ► This form should only be completed by uncertified handlers of OCal cannabis. Uncertified operations that store and/or supply non-cannabis organic product to a certified-OCal operation should instead complete the <u>Exempt Handler Affidavit</u>.

This affidavit is required for any of the following:

- Uncertified storage facilities used by CCOF operations to store unsealed OCal cannabis product or OCal cannabis product in permeable packaging.
- Uncertified brokers, traders, wholesalers, distributors, or importers who take title or physical possession of OCal cannabis products supplied to CCOF certified OCal operations.

This affidavit is not required for:

- Uncertified storage-only facilities used by CCOF operations to store sealed OCal cannabis products or OCal cannabis products product in impermeable packaging.
- Commission/fee brokers who do not take title or physical possession of OCal cannabis products.
- Uncertified handlers supplying OCal cannabis products in sealed, impermeable containers with final retail labeling that identifies the OCal status and original certified producer.
- Private label owners who purchase OCal cannabis ingredients that are shipped directly from a certified supplier to a certified copacker, and shipping documentation links to certified supplier.

CCOF operations must work with their purchasing department to determine if uncertified suppliers are used.

- ▶ Uncertified operations that store and/or supply non-cannabis organic product to a certified-OCal operation should complete the <u>Exempt Handler Affidavit</u>. Copies of the Exempt Handler Affidavit must be kept by both the CCOF certified operation and the uncertified handler entity. That affidavit and any sample audit trail records will become part of the CCOF certified operation's OCal System Plan (OSP).
- ▶ Uncertified handlers of OCal cannabis products must answer the questions below. A new affidavit is required only if there is any change in the future, including a change in management of the uncertified handler.
- ► Copies of the OCal Uncertified Handler Affidavit (UHA) must be kept by both the CCOF certified operation and the uncertified handler entity. This affidavit and any sample audit trail records will become part of the CCOF certified operation's OCal System Plan (OSP).
- CCOF certified operations will be billed an initial and annual fee for each OCal Uncertified Handler Affidavit and Organic Exempt Handler Affidavit, outlined in the CCOF Certification Services Program Manual. CCOF certified operations can avoid this fee by sourcing from certified handlers.

3 CCR § 10102 does not require certification of licensed commercial cannabis operations that do not handle cannabis products to be labeled, sold or represented as OCal if: (1) OCal products are packaged or otherwise enclosed in a container prior to being received or acquired, and (2) OCal products remain in the same package or container and are not repacked or re-labeled while in the control of the uncertified handler, except for Bureau sampling.

9)	Broker, trader, wholesaler, distributor, importer – Describe how frequently you change OCal suppliers:		
10)	Do your audit trail records for each shipment include the information described in section B below? You may attach sample documents to demonstrate your system; all records must be provided to the CCOF certified operation and will be verified during CCOF inspections. If you have an alternative way to provide a complete traceback to the last certified handler, attach a description.		
	If your audit trail records do not trace back to the last certified OCal operation, the CCOF certified operation will not be able to source from you until you improve your records.		

Find all forms at www.ccof.org/documents. Send completed forms to inbox@ccof.org.

To be excluded from certification, the answer to questions 1-7 must be "NO", questions 8 and 10 must be "YES." Question 9 must be complete for brokers, traders, wholesalers, distributors, and importers.

B. Audit Trail Records

CCOF certified OCal operations may only source from uncertified handlers who provide full supplier traceability back to the last certified OCal operation for each shipment. We find the following to be essential for traceability:

- 1) Purchase invoices, BOL, and other audit trail records must:
 - Designate products as OCal AND
 - Include a description of the product and amount transferred. You may strike out pricing information, provided that OCal status and quantity is legible.
- Uncertified handler records and the last certified operation's records must link:
 - The last certified operation must be listed on invoices AND/OR
 - Lot numbers applied by the last certified operation must match lot numbers on uncertified handler audit trail records.
- For each shipment, uncertified handlers must provide a complete and current OCal certificate for the last certified operation.
- 4) Documents generated by the last certified operation proving purchase, delivery, and/or transfer to the uncertified handler must be provided to the CCOF certified operation.
 - Uncertified handler audit trail records must link directly back to the last certified operation, including transport, storage, processing/handling, shipping, and/or distribution. Documents must show that OCal integrity was maintained; OCal products did not come into contact with non-OCal or nonorganic products or prohibited materials such as fumigants.
- 5) All certified suppliers must be approved by CCOF as part of the certified operation's OCal System Plan (OSP). Notify your CCOF certified buyer prior to changing suppliers.

CCOF certified operations must maintain records sufficient to demonstrate compliance. If CCOF inspectors cannot track OCal product back to the last certified operation, sourcing OCal products from the uncertified handler may be considered a noncompliance.

C. Uncertified Handler Statement

I, the owner or legally authorized representative, attest that I am qualified to assess the validity of the statements in this affidavit and the statements are true and accurate to the best of my knowledge.

I acknowledge the above requirements for audit trail records and disclosure to the CCOF certified operation and understand that failure to meet the audit trail record requirements or disclose records to the CCOF certified operation may be cause for CCOF to rescind approval of my operation as an approved uncertified OCal handler and may be cause for compliance action against the CCOF certified entity.

Certification of broker/trader/wholesaler/distributor/importer/storage facilities is straightforward and allows you to protect the identity of your suppliers. Visit www.ccof.org to apply for certification. Questions about the certification process? Email getcertified@ccof.org.

CCOF reserves the right to inspect any facility storing or handling OCal product owned by a CCOF certified operation per 3 CCR §10500, and 17 CCR §22115. If the uncertified handler misrepresents policies or procedures as stated on this affidavit or acts in a manner that might jeopardize OCal integrity or tracking of the OCal product, the CCOF client using the uncertified handler will be notified. The CCOF client will be held responsible for correcting any noncompliance issues. CCOF will report uncertified handlers who are not excluded to the CDFA and/or CDPH as applicable, for investigation and potential civil penalties.
