The CCOF Canadian Organic Regime (COR) Compliance Program is ONLY for operations located in Canada

Operation Name: _____ **Date:** _____

- If your operation purchases, sources, brokers, or distributes ingredients, list all ingredients used in organic products, including "work in progress" ingredients made in house. Update this form as you add new suppliers.
- For each multi-ingredient ingredient, submit an ingredient statement from the manufacturer to compare to your label.
- All nonorganic materials that contact organic products (i.e. processing aids, sanitizers, and packaging aids) must be listed on your **COR Handler Materials Application (OSP Materials List)**, not this form. For each nonorganic ingredient or processing aid not previously approved by CCOF, submit a **COR Nonorganic Processing Material Affidavit** or **COR Natural Flavour Affidavit**. Once certified, search for approved materials on MYCCOF. *Private label owners who do not manufacture are not required to submit nonorganic ingredients or processing aids for review.*

Vendor *The entity that your operation is receiving the Ingredient from*	**Manufacturer/Supplier** *Only list if different from vendor, and vendor is not certified organic*	**Ingredient Name** *List one ingredient per line*	**Organic?** *(Yes, No) If yes, attach organic certificate*	**Export Market** *ex: US, Japan, EU*	**Certifier** *(Optional, for your use) ex: CCOF*	**CCOF Use Only**
