

Operation Name: _____ Date: _____

Various sections of the Organic System Plan (OSP) direct you to list materials on your OSP Materials List. Submit this form with your initial application to describe products or materials used or planned for use at your operation. CCOF will review all materials listed and provide you with a copy of your OSP Materials List that includes those materials approved for your operation. To add or remove products after your initial application, you will update your OSP Materials List directly. CCOF may require additional information regarding products you include on this form. This protects you and helps ensure you do not use materials that will negatively affect your organic certification.

A. Feed Supplements and Additives

Feed supplements and additives are substances provided to fulfill specific nutritional needs or to improve the nutrient balance of the ration. They include salt (blocks and loose), vitamins, minerals, kelp, etc. All agricultural ingredients in feed supplements and additives must be organic.

If you purchase certified organic feed containing minerals or vitamins, do not list the components here. Include those products on L3.0 Livestock Feed, Feed Supplements, Water or L3.1 Ruminant Feed, Feed Additives & Water.

1) List all feed supplements and/or additives you provide to animals below (salt, minerals, vitamins, etc.). Also include silage and feed inoculants. You must include the full brand name of the material and the manufacturer.

- Not applicable, no feed supplements or additives provided
Additional pages attached

Table with 2 columns: Brand Name, Manufacturer

B. Medications & Health Care Materials

List all health care products you administer to prevent or treat illness. If you use similar products made by different companies, list each separately. CCOF approval is granted for specific products. List medication(s) you know to be prohibited on the next page. Include in the table below:

- Vaccines, Homemade remedies, Teat dips, Fly control materials, Injections, Boluses, Any other health care materials, Electrolytes, Disinfectants (contact with animal), Dewormers, Pain relievers, Foot baths, Medications administered or prescribed by veterinarians

Attach additional forms as needed.

- Not applicable, no medications or health care materials used

Table with 2 columns: Brand Name, Manufacturer

Brand Name	Manufacturer

C. Prohibited Health Care Materials

Medical treatment may not be withheld to preserve an animal's organic status. All appropriate medications must be used to restore an animal to health when organic methods fail. Livestock treated with a prohibited substance must be clearly identified and shall not be sold or represented as organic.

- ▶ List any materials you use or plan to use to restore animals to health when organic methods fail.

Brand Name	Manufacturer

D. Sanitizers & Detergents/ Cleaners

- ▶ List all sanitizers and all no-rinse detergents and cleaners used directly on food contact surfaces and livestock housing.
- ▶ List all materials (chlorine, peracetic acid, etc.) used directly on organic products (e.g. eggs, meat).
- ▶ List all quaternary ammonia sanitizers that are used on food contact surfaces, whether they are rinsed or not.
- ▶ Do not list detergents and cleaners that are rinsed off and have no risk of coming in to contact with food.
- ▶ Do not list detergents and cleaners that are used on non-food contact surfaces, such as bathroom or drain cleaners.

Brand Name	Manufacturer	Location, Surface, or Product
<i>Ex: Regular Bleach</i>	<i>The Clorox Company</i>	<i>Counters, egg wash water, disinfect chicken coop</i>

E. National List Pest Control Materials

- ▶ National List Pest Control Materials may be used only if preventative practices and mechanical/physical controls are not sufficient to prevent or control pests.
- ▶ Only list materials that are used in organic production and storage areas.

Material	Brand Name	Manufacturer	Location Used and Method of Application <i>(e.g. storage, fogging, crack and crevice)</i>
Lures			
Repellants			
Carbon dioxide			
Nitrogen gas (must be oil free grade)			
Vitamin D3 bait			
Boric acid			
Diatomaceous earth			
Soap products			

F. Non-National List Pest Control Materials

- ▶ Non-National List Pest Control Materials may be used only if preventative practices, mechanical/physical controls, and National List materials are not sufficient to prevent or control pests. Justification for the use of non-National List Materials must be provided.
- ▶ Only list materials that are used in organic production and storage areas.

Brand Name	Manufacturer	Location Used and Method of Application <i>(ex:storage, fogging, crack and crevice)</i>
