Op	eration Name:		Date:		
>	Complete this form to describe the location etc.)	ns where storage occurs (e.g. livestock f	eed, roughages for bedding, livestock products,		
Α.	Storage Locations				
1)	List all storage locations used for livestock needs.				
	Not applicable, no storage locations OR all storage locations are identified on G6.2 Farm Storage .				
	Storage Location Name / Address	Do you own or lease this facility?	Item(s) Stored		
		☐ Yes ☐ No. Complete question 2)	,		
		☐ Yes ☐ No. Complete question 2)			
		☐ Yes ☐ No. Complete question 2)			
		☐ Yes ☐ No. Complete question 2)			
2)	For storage locations that you do not own or lease: Which of the following applies to the storage facility? (If multiple facilities, check all that apply)				
	N/A, I own or lease all listed facilities.	Storage facility inspection is required.			
	☐ The facility is certified and I maintain copies of their organic certificate. Attach certificate.				
	If the facility handles your livestock products in any way other than storage, list in L7.0 Livestock Product Profile instead.				
	This facility is uncertified. Attach a completed Exempt Handler Affidavit (EHA).				
	packages or containers when received storage. In addition, the facility may no you if certification of the storage facility	by the storage facility and must remain thandle the product in any way other the is required.	oct must be enclosed in sealed, tamper-evident in those packages or containers throughout an storage. CCOF will review the EHA and notify practices to verify that the organic status of your		
	products will be maintained during storage, and prevent organic fraud.				
3)	For storage locations you own or lease that store both organic and nonorganic items:				
	N/A, all listed facilities store only organic items. Skip to section B.				
	a) How do you separate and label organic and non-organic items in storage?				
	☐ Separate storage areas for organic and non-organic items. ☐ Clear signage				
	All items are sealed and appropriaOther (describe):	tely labeled	ned prior to placing the organic product.		
	b) How do you identify organic storage a	reas?			
	a) How do you aloon atorned units or co	ntoinare prior to atorogo of organia itama	& record the cleaning? Any materials that directly		
			erials Application (OSP Materials List).		
	Pest Control in Storage				
1)	My facility pest management practices are identical to those described in L8.0 Livestock Product Handling				
	Yes. This form is complete . No, I employ different pest management practices in storage facilities. Complete this section.				
٥\	Include all materials used to control pests in storage areas on your OSP Materials List.				
2)	Who is responsible for pest control in your facility?				
	☐ In-house ☐ Contracted pest control	service (name):
