Organic parcels must have distinct boundaries (borders). Buffer zones are areas between organic parcels and adjacent land not under organic management. They must be managed organically and must be sufficient to prevent contamination of organic land, crops, and/or livestock by prohibited materials applied to adjacent land, and/or by products produced by genetic engineering (e.g. GMO seed). Notify CCOF immediately of any application or drift of a prohibited material to organic land, crops, and/or livestock.

G. Verification of Land History & Activities

Your land cannot be certified organic until all land history documentation is complete, the parcel has been inspected, and the inspection report reviewed. To establish land history, CCOF may require additional verification from other sources such as Pesticide Use Reporting or contract materials applicators. **Making a false statement to an accredited certifying agent shall be subject to the provisions of section 1001 of title 18, United States Code. (NOP §205.100(c)(2)).**

- ▶ Provide one of the following to verify land history.
